The CAEP Pathways

- **Selected Improvement** (SI) pathway emphasizes data-driven improvement of the provider's performance in a selected area or areas of preparation.
- **Transformation Initiative** (TI) pathway emphasizes a formal research study that advances and informs the field.
- **Inquiry Brief** (IB) pathway emphasizes the study of candidate and completer outcomes, aligned with own goals and mission as well as CAEP standards.

(Accreditation Manual pp 7-8)

SI Distinguishing Characteristics

- EPPs seeking accreditation under the SI Pathway **demonstrate progress in achieving a higher level of excellence in educator preparation** by developing and using a data-driven “Selected Improvement Plan” (SIP)
- Self-study report written to each of the 5 CAEP standards and includes the SIP and progress report.

(Accreditation Manual p 29)

TI Distinguishing Characteristics

- Research and Development (R&D) approach to accreditation
- EPP submits a proposal to conduct a Transformation Initiative project to **engage in rigorous research investigation** of a chosen aspect of educator preparation to inform the profession and/or offer research-proven models for replication of promising practices.

Quality Assessments

Patty Garvin

Characteristics of Quality Assessments

- **Validity.** Is the measure appropriate for its use?
- **Reliability.** Does the evidence measure the same thing every time in the same way (mostly)? Can the finding be replicated?
- **Relevance.** Is the assessment appropriately related to a particular CAEP Standard(s) that the EPP is claiming it meets?

Characteristics of Quality Assessments

- **Representativeness.** Is the evidence drawn from situations that are typical and potentially generalizable?
- **Cumulativeness.** Is the evidence theoretically grounded? Is the evidence part of a coherent and explicit chain of reasoning?
- **Fairness.** Will the measure return the same result even if applied by different observers under different circumstances or at different points in time?

Characteristics of Quality Assessments

- **Robustness.** Is the evidence direct and compelling?
- **Actionability.** Why is the evidence important?

CAEP Evidence Guide, Section 5: Validity and other Principles of Good Evidence, pp 16-21

Optional Early Instrument Evaluation

- EPPs elect to submit to CAEP the generic assessments, surveys, and scoring guides that they expect to use to demonstrate that they meet CAEP standards.
- 3 year prior to completion of the Self-study report
- Feedback provided by CAEP-trained assessment experts
 - EPP revises instruments and collects one or more years of additional data

(Accreditation Manual pp 27-28)

Activity: Reviewing Instruments

Materials in packet:

Assessment Rubric, Section 6

Assessment #1, Reflection Scoring Guide (p. 3)

Assessment #2, Scoring Guide for Reflection (p. 4)

Assessment #1 – Reflection Scoring Guide

- For Assessment #1, please use the Assessment Rubric to score the submission.
- Discuss any strengths or weaknesses of the instrument.

Assessment #2 – Scoring Guide for Reflection

- For Assessment #2, please use the assessment rubric to score the submission.
- Compare Assessment #1 to Assessment #2 – what are the differences?

Evaluating CAEP University

Assessment #1, Reflection Scoring Guide?

Assessment #2, Scoring Guide for Reflection?

Why rubrics?

- Candidates and evaluators need to know the criteria being used to make the evaluation.
- Candidates need specific feedback on why they were scored at a level
 - If the criteria is not given on the rubric, candidates have no way to know what they did right or wrong
 - Not knowing will make any learning random
- Reviewers need guidance on expectations at each level
 - Increases the reliability of the instrument

Five criteria for Rubric Development

- **Appropriate** – aligned with some aspect of the standards
- **Definable** – clear, agreed-upon meaning
- **Observable** – quality of performance can be perceived
- **Distinct from one another** – each level defines distinct levels of candidate performance
- **Complete** – all criteria together describes the whole of the learning outcome

Assessment #3 – Internship Evaluation Scoring Rubric

- For Assessment # 3, does the rubric meet the 5 criteria (p. 5)?
 - Appropriate
 - Definable
 - Distinct
 - Complete
- How could the rubric be improved?

CAEP Policy Manual, Updated February 2013, p 20

POLICY XXV Qualifications and Training of CAEP Volunteers

CAEP volunteers who conduct site visits, review programs, or serve on the Board, Council, Commissions, or committees are qualified by education and experience in their fields of specialization. They include academic and administrative personnel from EPPs, educators from EPPs, practitioners, and public members. All CAEP volunteers are trained in CAEP standards, policies, procedures, and ethics as well as the processes for the revision and establishment of policies, and the process for making accreditation recommendations or decisions. Training includes responsibilities regarding the application of standards to EPPs including their distance education programs.

Make your case

- Use a summary statement to make a case for meeting the standard based on evidence
- Case is made at the standard level holistically
- All components must be addressed in the standard
 - Required for Full Accreditation – Standard 4 and Components 3.2, 5.3, 5.4

(Accreditation Manual – p 29)

Writing the Narrative

- **Frame the argument** to be made for a standard
- Describe the **data sources** (representativeness, relevance, and credibility for the standard)
- **Draw a conclusion** about the extent the data support the standard (triangulation and convergence of evidence)
- **Discuss implications** of the findings for subsequent action

Themes of Diversity & Technology

- Highlight and present evidence of integration of diversity and technology

COMPARISON

SELECTED IMPROVEMENT

- Internal Focus
- Data Driven

TRANSFORMATION INITIATIVE

- External Focus

Standard 5: Provider Quality Assurance and Continuous Improvement

Component 5.3 :

“The provider regularly and systematically assesses performance against its goals and relevant standards, tracks results over time, tests innovations and the effects of selection criteria on subsequent progress and completion, and uses results to improve program elements and processes.”

Component 5.4:

“Measures of completer impact, including available outcome data on P-12 student growth, are summarized, externally benchmarked, analyzed, shared widely, and acted upon in decision-making related to programs, resource allocation, and future direction.”
